

Suzuki Alto VXL 2025

Overview of the Suzuki Alto VXL 2025

The Suzuki Alto VXL 2025 is a compact and economical hatchback specifically designed for the Pakistani market. This document exclusively discusses the Suzuki Alto VXL AGS model to ensure clear differentiation from other vehicles in our dataset, maintaining the integrity of our retrieval system.

Suzuki Alto VXL 2025 Price in Pakistan, Specs & Features

The Suzuki Alto VXL AGS 2025 is priced at PKR 3,045,000. It offers an impressive fuel economy of 18 to 20 KM per liter, making it a highly efficient vehicle for both urban and highway driving. This model features an Automatic Gear Shift (AGS) transmission, making it a convenient option for those looking for an easy-to-drive, fuel-efficient car. Powered by a 658 cc petrol engine, it strikes a balance between affordability and practicality.

Colors Available

The Suzuki Alto VXL AGS is available in five different colors, catering to various preferences: Cerulean Blue, Graphite Grey, Pearl Black, Solid White, and Silky Silver.

Specifications

Dimensions

The Alto VXL AGS has a compact design with an overall length of 3395 mm and an overall width of 1475 mm. Despite its small size, it provides a reasonable boot space of 125 liters. It has a kerb weight of 670 kg and a seating capacity for four passengers. The ground clearance of 170 mm ensures a smooth drive on Pakistani roads, even when encountering speed bumps or uneven surfaces.

Engine & Performance

This model features a 658 cc petrol engine with an inline three-cylinder configuration. It delivers a maximum power of 39 HP at 6500 RPM and a torque of

56 Nm at 4000 RPM. The engine employs a DOHC valve mechanism and a Multi-Point Injection (MPI) fuel system, ensuring optimal performance and fuel efficiency. The car has a maximum speed of 140 KM/H, which is adequate for city driving and occasional highway commutes.

Transmission

Equipped with a five-speed Automatic Gear Shift (AGS) transmission, the Suzuki Alto VXL AGS provides a smooth and responsive driving experience, making it ideal for city commutes. The AGS system automatically shifts gears, reducing driver fatigue, especially in heavy traffic conditions.

Steering

The car is fitted with an electric power-assisted Rack & Pinion steering system, offering a minimum turning radius of 4.2 meters. This enhances maneuverability in tight urban spaces, such as congested streets and parking lots, making it a practical choice for city dwellers.

Suspension & Brakes

The suspension system comprises McPherson Strut Coil Springs at the front and a Torsion Beam with Coil Springs at the rear, ensuring a comfortable ride. The braking system includes solid disc brakes at the front and drum brakes at the rear, providing reliable stopping power and stability in emergency braking situations.

Wheels & Tyres

The Suzuki Alto VXL AGS comes with 13-inch steel wheels with full wheel caps. The tyres are sized at 145/80/R13, which are well-suited for urban driving and provide a balanced grip on the road. However, it does not include a spare tyre, which might be a concern for those frequently traveling long distances.

Fuel Economy

The vehicle delivers an impressive fuel economy of 18 KM/L in city driving conditions and up to 20 KM/L on highways. It has a fuel tank capacity of 27 liters, ensuring long drives with minimal refueling stops, making it a highly cost-effective choice for budget-conscious users.

Features

Safety

The Alto VXL AGS prioritizes basic safety features, including two airbags, an immobilizer, and Anti-Lock Braking System (ABS) with Electronic Brake-Force Distribution (EBD). Additional safety features include child locks, a high mount stop lamp, and a door opening warning system. However, it lacks advanced safety systems such as Traction Control, Autonomous Emergency Braking (AEB), and Lane Departure Warning System (LDWS), which may be a concern for buyers looking for enhanced safety.

Exterior

The exterior of the Suzuki Alto VXL AGS is designed with practicality in mind. It includes body-colored outside door handles but lacks premium features such as alloy wheels, fog lights, DRLs, and a sunroof. The absence of these features keeps the cost down while maintaining the car's essential functionality.

Instrumentation

The dashboard features an analogue information cluster with a Multi-Information Display (MID), ensuring essential driving information is easily accessible. This simple but effective setup provides key data such as fuel efficiency, trip details, and maintenance alerts.

Infotainment

This model is equipped with a basic infotainment system, including a 6-inch standard LCD display. It has two front speakers and supports USB and auxiliary cable connectivity. Bluetooth connectivity is also available for hands-free communication, but it does not include advanced features like Apple CarPlay or Android Auto, which may be a drawback for tech-savvy users.

Comfort & Convenience

The Alto VXL AGS is designed for convenience, featuring power windows, power mirrors, keyless entry, and central locking. It includes a manual air conditioning system and a heater for climate control. Additional comfort features include cup holders, interior lighting, and a front power outlet. However, it lacks cruise control,

rear AC vents, push start functionality, and an auto-dimming rearview mirror, making it a more basic option compared to higher-end vehicles.

Who Should Buy This Car?

The Suzuki Alto VXL AGS 2025 is an excellent choice for individuals seeking an affordable, fuel-efficient, and low-maintenance vehicle. It is particularly well-suited for first-time car buyers, students, and small families who require a compact hatchback for daily commuting. The automatic transmission makes it a great option for those who frequently drive in heavy city traffic, as it eliminates the need for constant gear shifting.

For those living in congested urban areas, the Alto's small footprint and excellent fuel efficiency make it an economical option. Its low maintenance costs further enhance its appeal to budget-conscious buyers. However, those looking for advanced safety and luxury features may need to consider other options in the market.

Conclusion

The Suzuki Alto VXL AGS 2025 is an affordable, fuel-efficient, and practical hatchback tailored for the Pakistani market. Its compact size, economical engine, and essential features make it an ideal choice for daily commuting. While it lacks some advanced safety and comfort features, it provides excellent value for budget-conscious consumers looking for a reliable and easy-to-drive vehicle. Whether you are a young professional, a small family, or an individual looking for an economical mode of transportation, the Alto VXL AGS is a solid contender in the entry-level hatchback segment.
